65W TDP Premium Cooler for INTEL[®]
Socket LGA 17XX / 1851

Optimum cooling performance for INTEL[®] processors

Product description

The EKL 22206 dissipates the heat of your processor ideally and reliably. Thanks to its low height of just 123 mm, the EKL 22206 is suitable for all standard systems and workstations. The screw mounting developed for the Intel[®] LGA 1700 socket is particularly simple and secure: place the backplate, attach the cooler, tighten the 4 spring screws - done. The built-in fan has a 4-pin connection and can therefore be controlled manually via the mainboard. This enables an adjustable speed range of 500 - 1800 rpm.
